Request to Play Outside of Assigned League

The Amherst Athletic Association will consider the opportunity for parents/guardians to request for their child to play outside of their assigned age appropriate league. These considerations will be made in the best interest of the child due to player safety, development, and ability. Under no circumstances will a child be allowed to play outside of their assigned league for convenience. Appropriate actions will be utilized by the Amherst Athletic Association to determine if the player is suitable for the desired league. This may include player evaluation, contacting previous year's coach, and/or requesting documentation from a medical and/or an educational professional if necessary.

Once uniforms have been ordered, any player who has changed leagues may not move back to their original league. If uniforms have not been ordered, the player who has moved may move back to their original league, however no refunds for the league difference will be issued unless determined by the board.

All league changes must be approved by the board.

Player Name _____ Date of Birth _____

Assigned League _____ Requested League _____

Parent/Guardian Name _____
